

## **Position Opening**

**Job Title:** Tower Crane Operator

**Job Summary:** Operate tower cranes that are used to lift and relocate construction materials. This will include but not be limited to: steel bars to the building foundation, lifting various construction materials from the ground level to the top of the building, and concreting shear walls, columns and core walls.

### **Responsibilities and Duties:**

- Assist all crews on site as requested/scheduled
- Perform pre-operation checks on electrical system including start up, limit and load switches, swing and drum motors and brakes
- Perform pre-operational tests, inspection of load line and crane parts and scheduled maintenance for lubrication of mechanical systems
- Perform pre-plan safety meetings with sub-contractors to ensure daily work schedules are accomplished in a safe and timely manner
- Hoist and move material around the job site for all construction trades
- Keep and fill out all inspection logs for crane

### **Qualifications and Skills:**

- NCCCO Tower Crane Certification with TWR endorsement
- DOT Medical Certification
- Excellent follow-through and organizational skills
- Aptitude to adapt to changing priorities
- Must be customer service oriented
- Must have good verbal communication skills to ensure safety with adjacent cranes and ground crews
- Must be able to complete forms for requested deadlines in writing
- Punctuality is a **MUST**

### **Benefits:**

In addition to a competitive salary, we offer a generous benefits package, including 401(k).

### **How To Apply:**

Please submit a cover letter, resume, copy of NCCCO, DOT Medical, and any additional beneficial certifications, including your salary requirement, via the link at the bottom of our Careers page or
